

## My old rev3 NA is back up for sale

Posted by TSPORTER - 2014/12/27 19:09

---

Nothing to do with me but I just seen it's for sale by the guy I sold it to a year ago. Few very minor cosmetic things with her but a bloody great car to go when I had it!

No I didn't buy it back. If I had room for any more cars I never would have sold it when I got my mk1.

Hey guy n gals

I bought the MR" from Silverbullet.

When I saw it I couldn't resist, I had a UK spec Gti about 10 years ago so knew what to expect.

I plan to do a general clean up on it and few small bits

Nice one Tig, welcome along! Got yourself a good one there.

Here she is on the dyno at the mr2 day in Westward when I had her.

CIH1DOnaes

What part of the country are you in?

Thanks

I'm in Limerick.

At the moment it needs a centre vent, storage box under the steering wheel, surround for electric windows switch on the driver side few interior bulbs, replace all the speakers.

Also full service, timing belt and clutch is starting to slip.

Aside from that respray the wheels, replace the driver wing, get an original steering wheel, maybe get original air box and suspension, steam clean and polish engine and full compound and polish outside.

.....

Should keep me busy for the weekend. ...or a bit longer. ...haha
