

AW11 drift in car (video)

Posted by Quandry - 2010/08/03 09:52

Guy is hauling ass!

I like the G meter on the windscreen :). Cup holders seem to work well too!

Jesus thats mental, get the first corner wrong and your fuked. Look at the armco on the way downhill not much room for error there.

Now is it me or does that whole thing look downhill even though there is at least two laps completed :blink:
