

New Gts Owner

Posted by Javier - 2010/09/26 20:40

Hi,

New to the site.I have 94 Rev 3 Import. Lots of good information to be had on here B)

The car is fairly standard.

Spec:

HKS Super Dragger Exhaust

Apexi Power Intake

HKS Turbo Timer

Apex Springs

Exedy Clutch

TRD 1.5 Limited Slip Differential

Toyo R888's on the rear, Goodyear Eagle F1's up front

It also has a reconditioned gearbox,

I put in a Defi racer 0-2bar electric boost gauge yesterday.Also changed the indicators and lenses at one of the reflectors was missing when I git it and was doing my head in. My last Toyota was a Starlet GT. (owned it for ten years...lol and ran it on high boost for 5 of them so im happy to have another Turbo Toyota as they are virtually bulletproof IMO. Last turbo car was a Tuned up Pulsar which was too thirsty for me..lol

Posted by Spidey - 2010/09/26 21:12

Welcome to MR2.ie :)

You're right - they are bulletproof - problems only start when people don't modify properly B)

Check out What County has the most 2s ?

Welcome to the site nice clean looking 2 you have there

=====

Re:New Gts Owner

Posted by Javier - 2010/09/26 21:25

Many Thanks Dan! saw your welcome thread earlier. Jes you must have been cursing me...Sorry!

@Spidey Thanks. I Have had a few turbos at this stage. Love them but always am fairly conservative with modifications.

Id say if I got it up to near 300Bhp that would be great. but 247 will do for now. Car was Dyno'd in Westward a while back at that.

Cheers Ricky2

Hey Javier, welcome to the site and welcome back to the car its been a while,

From another thread:

<http://i237.photobucket.com/albums/ff87/mog7/My%20MR2%20Turbo/P1000662-1-1.jpg>

Well may she wear B) , was only talking to the original importer of the car last week when he came to our rescue outside Tullamore.

Im sorry Javier but that is disgustingly sexy that should not be allowed in the public domain without a warning.

The blue on the alloys in this older pic really set it off.

Hey Javier! Welcome to the club :)

I too had a turbo starlet (Glanza) for years and after loadsa different Jap Performance cars I returned to Toyota and an MR2 ;)

Power, Reliability, Economy, Handling AND Great Looks to Boot :)

Who could blame us ?
