

## mr2 blinds/t-bar shades

Hi everyone, whats I am looking for for are the t-bar shades, they never came with the car when I got it and I have always been meaning to get them, I think they come in 2 different colours (light and dark) preferably I'd like the dark but I will take either as they'd be handy for the winter too.

Thanks,  
Akira

They actually come in grey, black and blue. The bags come in black, although they have different labels on them according to year/country of origin, most of the labels peel off though after time, rare to find a pair of the bags with perfect labels attached as the glue has softened over this amount of time and peeled off.

I've had a load of these blinds/bags, and i'm STILL searching for a concourse set :(

I do still have some sets in good condition though, if you don't get sorted elsewhere.
