Just want to say a very big 'Thank You' to Steelheart for selling me his amazing GTS which i am now the proud owner of - thanks as well to Spidey and Quandry who told me it doesn't get any better than this car for the price.

Cheers Dave, Glad you got it home in 1 piece on them icy roads. Have to say I was sad to see it go watching you drive out of the estate in it. But I know you will look after it. Best of luck with it & if you ever need to know anything about it don't hesitate to give me a shout.  
Pleasure doing business with you :-)

Your welcome Dave, Your wife is the opposite to my missus, I brought her for a spin in it and she said she would never drive it, that it was too fast & dangerous :-) Try that with your wife, It might just work :-)
