

fuse box help

Posted by joker - 2010/12/27 19:31

Hi all..your help is needed again! I had to jump start the car this morning and doing so ive blown a couple of fuses.windows,heater and a/c...i cant find the fuse box.i found one under the bonnet and another in the engine bay but not the box i need.i googled it and it said (drivers foot well kick panel)Its not there or on the other side.its a 1990 jap g-limited.. :blush:

thanks smiggy.i will look again tomorrow.ive also been told i was wrong in jumping it from the battery and that it should of been done from the engine bay fuse box theirs ment to be a heavy cable in their that you connect to and then earth to the engine and that might of helped to blow fuses.learn something new

every day..
