Just thought I'd post up here to thank both Geoff for the clutch and Ray for being kind enough to meet me with it in Donegal. It took a week or two longer than I thought but I got it off you in the end Geoff! Thanks a million for dropping it up to me as well Ray. I'll get on to you about the powder coating as well whenever I get the bits sorted.

Karma clicks for both you guys!

Cheers Dan, I hope it's all that you were expecting. Big thanks (and KC) to Slipsliiderg who helped us both out at his own expense.

Pleasure to do it lads

Thanks for the KC's guys, it was nothing was at home eating the spuds at 21-30 and all.

Long day though started on the road at five yesterday morning for work in Ballina, then onto Sligo for work. It was only a short spin from Sligo to Donegal town and the drive home was cross coutry along lough Erne, a road I must repeat in the MR2 at some stage :woohoo:

Dan thanks for helping me find another road I haven't driven before and sure your both KC'd back, feeling the love today. Oh can't give KC's when I am in work for some reason. Will do it when I am home.
