

Want your car in the header above?

Posted by Quandry - 2009/08/24 18:21

If you would like to see your car gleaming in the header above, simply send me a PM with a link to an image that I can pull. It must be 850pixels wide, you have to own it, and give unrestricted permission for this site to show it - forever :ohmy:

Note: do some photo shopping unless you want your numberplate on the Internet for everyone to see.

There's only a couple of Irish cars up there at the moment, but I'm happy to receive pics (they have to be over 982pixels in width). I think the blue one is in Southern California.

If you see posts in the forum about 'a new VIP' that are guys that are giving us permission to put their car up there.

cheers,
Quandry

btw, if it's the blue MR2 with gold wheels at the docks that you mean, that car has been resprayed white now! :ohmy:

Hi Tim, great looking 2! only thing is that pic is only 639 pixels wide. So they need to be bigger (like what would fit on a 1024*768 screen).

Frank, check out the Antrim Run thread, some nice views/pics there. We did a run all around the coast road of Northern Ireland in conjunction with www.mr2oc.co.uk. We met a load of the lads from up north who are mostly members of the oc.co.uk, but a lot of them have now signed up here too, so our community is growing and the meets are therefore getting bigger and better.

They look great yeah, seems to be a lot of pics in there now. I was thinking, maybe out of turn, so forgive me, but seeing as though as a forum, we are gathering up more and more pics and shoots and will likely be adding more and more to the headers, would it be an idea to just have all forum members cars in the header as opposed to members and also pics from the web? What do you think?

That's been suggested before, however I think it makes the site more interesting to have a variety of MR2 pics in there from different clubs around the world. It is both entertaining and educational to have input from foreign MR2 owners. There are some very interesting pics in there and I think it makes for an interesting and attractive welcome for people to the site.

Hands up, I suggested that before, but that was when we didnt have much Irish pics in the banners, I think its looking great now and love Franks one of the 4 white 2's, so its a credit to us as a "forum" for getting out there and getting great photos for the banner aswell as an incentive to get out there & get even better ones for it :clap:

Cheers Steve, unfortunately though that pic would not be a contender. There's nothing wrong with the picture itself per say, but rather how it can be applied as a header image there's a few problems with it.

I'll have to do a writeup on how to get a good header pic :)

Hi Tim,

Thanks for the pics, that is a very rare and special MR2 you have there. Before we can use them however we need permission from Rich (ideally written in this thread) that say that he grants MR2 Drivers (MR2.ie) unlimited use of the pictures in part or full as we see fit. I know that seems weird seeing as it is your car, but in the eyes of the law Rich is the owner of the picture so he needs to grant license to use them.

Understood completely and agree too. I have to clarify though, I said forum members cars, not just Irish peoples cars. Nothing against foreign cars being there. I just thought it would be nice if they were all members cars, but as I said, I see your point and take it on board. :yes:

PS: That high res image link for you. If its too messy for the header dont worry about it, not too bothered.

Re:Want your car in the header above?

I put up a few new header pics yesterday. There are some pictures that lose their brilliance when cropped to that size/shape. There's also some other pictures that look very plain that turn out amazing in the header.

If you would like to see your car in the header, post up pics, they must be at least 1000px wide. There's no guarantee I can use them, but if I can I will.

Note: you need to OWN the pictures, not just have downloaded them from somewhere.
