As some of you may know i've sold off my mr2 turbo, i'll be back in something else Jap in the summer though :)

But i sold the car without the Advans so they are now for sale

16 x 7 fronts (1 very good Toyo T1R, other 1 has a slow puncture)

16 x 8 rears (2 new Toyo T1R's)

The dirt in the picture is just brake dust and they have been cleaned up nicely, there is still some chips as you would expect but in good condition.
