

Side skirts fitter in Dublin?

Posted by disco72 - 2012/10/20 12:31

On the off chance, can anyone recommend a person/company in Dublin that will fit/spray fibreglass side skirts and air scoop onto my 2? I got a price from a local company and they're quoting €350-€400 - is that a decent price? I know fibreglass skirts can be a nightmare to fit hence I want the job done professionally.

Any suggestions are greatly appreciated.

If I was doing it for you you would be lookin around that kinda money maybe a little less... Depends on the quality of the skirts so its a fair price in all honesty
