

speedometer from cable to electronic

Posted by Gerrymr2 - 2013/08/22 22:58

Hi guys,

Just wondering if its possible to convert a cable
Speedometer to an electronic like in the rev 3 model

I have 1991 nob turbo fto. But my fto has a later model
Gearbox from a rev 3.

I have the rev 3 speedometer cluster their also.
But can the rev 1 ecu accomadate electronic speedometer?

Cheers guys

It would be easier to swap the electric sender for the mechanical one the gearbox and use what you
have.
