I can't bear to scrap it, so it is still outside the garage and not in the skip with the rest of the track car internals.

It would need an fibreglass man to fix it up properly, somebody like a canoe maker etc. Its free in current condition, however I might fix it up and sell it for a considerable sum (liver / kidney, you get the picture)
:)

I sold a black one to a guy around Newry. Not sure if he ever used it or not. It was in great condition - I had brought it in from Japan for my own car but had a change of mind.

Dollars are not an issue Harper, free to take away. You have first refusal on it, but a queue is forming. Blt dirty now but nothing a good hoses won't get rid of.
