

wheel spacers

Posted by dazzler mk2 - 2014/04/06 13:40

Hi all ,
Would anyone have a pair of wheel spacers and extended bolts for sale ?

After a bit of searching I managed to find the bits I was looking for. I got these with the original 15" mk2

MR2 wheels when I bought them. I have wheel nuts to go with them. The two spacers do not have any thread patterns in the holes so not sure if its what you are looking for.

I'm sure they'd do the job !
How wide are they ? And how much do you want for them?
Cheers !

They are 135x10mm.

PM me an offer if you like as I am looking to buy a set of rear Falken tyres which I have been quoted €150. Every little bit helps....

I am based in Galway city. Where are you based?

Sorry for delay getting back to you,

I was just checking sizes , unfortunately ill need a spacer bigger than 10 mm ,
At least there up on the site now and someone else might take

them, just stick a price on them and they should go.

Thanks a lot
