

## New Interior

Posted by Cashy - 2014/09/08 22:28

---

Ok so I have my MR2 back from the shop with a shiny new interior B)  
I decided to go a soft red cloth which is breathable and hard wearing and genuine black leather on the outside and headrest and matching red stitching. I also got the doorcards retrimmed and theres a much plusher softer feel to it too! Let me know what you think!  
PM me too if your interested in getting something similar ;)

Nice and tidy Cashy, the red stitch always looks great in Mk2's...

Looks good. Just wondering who did it? I'm looking for somewhere to cover my centre tunnel. Andy

My friend of mine is an upholsterer and did it himself. Took about 3 - 4 days depending on the condition of the seats. Mine were not in good nick :( I asked him for a price for ye and he said it'll be roughly €500 for the two seats or €600 for the complete 2 seats and both door-cards. Its 100% real leather. He replaces the door-cards with a much plusher, soft material and then covers it matching whatever you want like I shown above and looks and feels way nicer!  
To cover the center tunnel I never asked but I'll find out for ye :)
