Welcome to the site :laugh:

There is also mr2 Ireland group on facebook I'd recommend for you!

Welcome to the site.

B)

There are a few guys with track cars here. Have a browse through older threads.

Cheers for the welcome everyone. wont make it to this trackday with the car, i may go to have a look, is it mr2s only at it?

@ Tsporter. I am planning to get better wheels, track tyres, coilovers and a decat. I have ordered EBC yellowstuff pads, and the car allready has dimpled and grooved discs. I have started to remove any unnecessary parts like boot carpeting, plastics up front, and i will be removing most of the interior and soundproofing. the engine will be removed in the coming weeks and a mechanic friend of mine is doing the timing belt, waterpump and thermostat.
