What kind of condition is the radiator in, and what's the price?

Also a left side window regulator price please.. someone tried to break into mine and bent the internal arm the windowpane runs on :/

Any body parts? (car not human)

If so, what colour is the car?

A Rev 3 spoiler ideally.

Is the front bumper standard?

Thanks you Raymond for the bits I collected from you the other evening! Was great to meet another MR2 enthusiast. The rad went in just fine - it turns out that mine had a turbo rad, but it's all good now. I've yet to disassemble my door for the regulator and I'm going to have to schedule that for a few good weather days just in case.

Made it home in good time too, without any issues thankfully!

Best of luck with the 2zz, and moving on the other parts from the black car :)

Thanks cathal, nice to meet you. You're certainly not scared of a wee drive. Post some pics of your car sometime.

Regards Raymond

how much for anti roll bars?
Where are you located?

=====
Re: Mr2 mk2 rev3 na track car breaking big spec

Posted by Tedtiler - 2016/01/31 19:47

Sorry the car is away and so are most of the bits

=====

Posted by SuperAndy - 2016/02/02 14:14

ok, does that mean they are not for sale now or ever ?
Sorry I amn't sure what you meant
