

NEED FOR NCT

Posted by Paddy212 - 2015/07/31 13:33

Hey lads my 4 brake disc covers are completely eaten with rust! Need 4 of them if any one has for sale?

Hi martyr cheers for your reply

No it hasn't a cruelly sit the test yet but the mechanic up my way said if they are rusted it definitely not pass he was showing me a customers not fail report that failed on rusted/damaged brake disc covers

Is the MR2 breaker in the West still going?

another option would be GTSChris in the UK they break MR2s and have a lot of parts.

nuts do you need brake disc covers for the NCT?

Mine are removed..

Just for info it is not straight forward to replace these as i refurbished my own a few years back.

you will have to remove the complete hub and pull out the wheel bearing to get them off.

you might want to factor this ahead of your NCT. best of luck.

Ha you just reminded me of that, when I "whipped" them off I'd a little help from Mr Dremel alright :D

This stinks of effort...
