

## walkthrough or build thread for a 3gse to beams?

Posted by SuperAndy - 2016/03/02 13:00

---

Hey guys, I am interested in reading a step by step or build thread of someone going from a manual 3gse to a beams engine.

i have come across this <http://midshiprunabout.org/mk2/guide-cost-effective-beams-swap/>

but I'm looking to a start to end swap.

Thanks lads
