

Cancer bar - Drivers side

Posted by eringobragh - 2016/08/19 00:38

took it out and the top is pretty much past it -anyone got one spare?

AFAIK these are the part numbers:

53653-17020 Brace, Right

53654-17010 Brace, Left

90119-10647 for the bolts

Can probabaly still buy new at a Toyota Dealer?

TCB have them also, I must cleanup mine ... keeping the muck off them helps them survive a bit longer!

Someone in the UK was making stainless steel bars for the mkII. I'm not sure if they still make them though.
