Hi lads. Its been a long time since I've been on the site I've a lot to catch up on. What is the general consensus on the magazine?
I haven't seen it yet myself. Does it cover all mk1 /mk2 and mk3s?

I think it's a pretty good read. You probably can find most of the cars on the web, but I like the feel of a magazine when reading. It has 104 pages cover to cover. At the end of the day, it does a good job at promoting the MR2 and it's followers.

A quick look through and there are:

- Four mk1's.
- Seven mkII's.
- Two mk3's.

The cost of postage to Ireland bunks up the price.

As a car magazine I give it 7 out of 10.

I am glad that they decided to restart the magazine.

Looking forward to issue 3. :)
